

Complete derivatives ecosystem for crypto assets

CA Bhinang Tejani (*Co-Founder & CEO*)

September 2018

The Problem

The **gap** in the market

Despite the lack of institutional trading platforms, billions of dollars daily are being traded on cryptocurrencies.

4 major causes of which crypto cannot reach an **X10.000** untapped market capitalization.

- 1 Derivative Markets
- 2 Tools only for Retail Traders
- 3 Charting & Visualization
- 4 Choices in spot trading

The Solution

Bridging the gap between yesterday & tomorrow.

Derivative Options

Single click trading interface to use American options for all crypto's.

Advanced Order Types

Bracket order, Cover order, Trailing stop loss, Multiple stand by order, trigger order.

Strategies for Hedging

Ready to use option strategies like condor, straddle, strangle, spread, butterfly.

Charting & Visualization

Real time data charts supporting generic and advanced technical indicators and analysis.

Derivative Futures

Perpetual futures with as low as 4% margin and no carrying cost.

Hybrid Exchange

Security of decentralized when combined with speed of centralized exchange.

Market Size

We charge 0.10% fees on each trade.

Trading Volume:
\$4.4 Trillion p.a.

Based on current 24
hours volume as per
coinmarketcap.com

**Volume on
Bitozz:**
\$44 Billion p.a.

Assuming 1% of total
trading volume

Revenue:
\$44 Million p.a.

Estimate by end of
2020

Technology Stack

State of the art technology

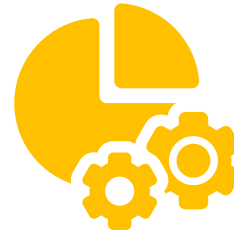

**Cloud computing
& AWS**

All processes and scripts will reside in EC2 Machine

**Load Balancers
& Docker**

Managing the instances offering high scalability

**NodeJS, ViewJS,
TensorflowJS**

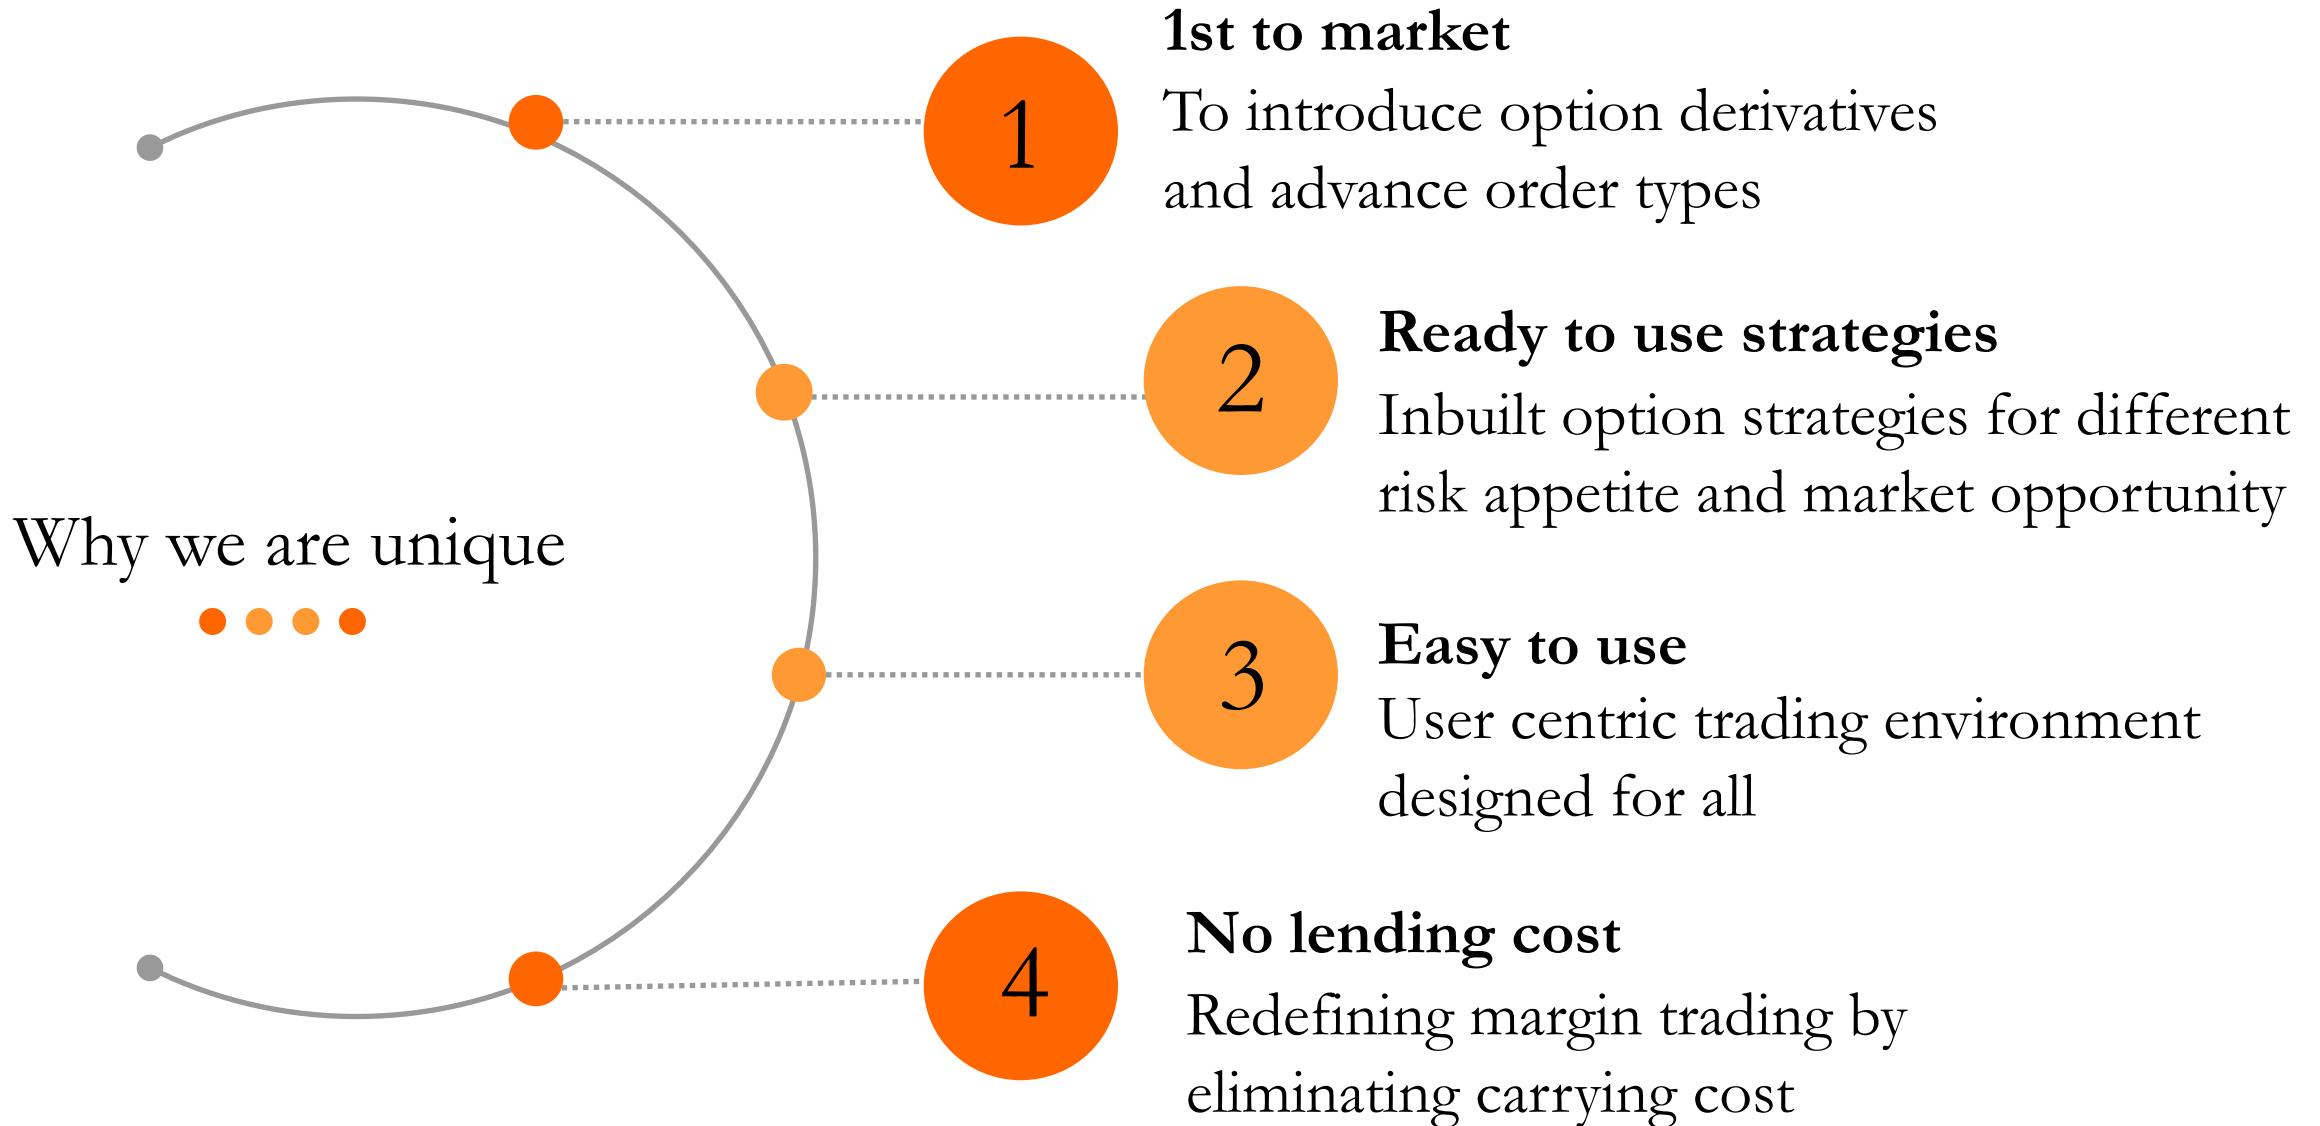

Institutional grade matching engine with machine learning capability

**PostgreSQL &
Aurora**

Data storage systems and injections systems

Competitive Advantage

Competitive Landscape

Features:	Bitozz	Binance	Kucoin	Bitmex	Bitfinex	Poloniex
Options	✓
